

Remarks/Arguments:

This is a reply to the office action of February 22, 2005. The examiner objected to the drawings and form of some of the claims, but claims 1 - 10 were indicated to contain allowable matter.

We have amended the claims above to overcome the specific deficiencies identified by the examiner and to put the claims generally in better form. The term "tray opening" was replaced by the more descriptive "upper space".

We also are submitting a substitute specification to correct typographical errors and prevent confusion of terms. For example, the front pane(s) are now referred to as "panes" 25, and the rear pane or panel is consistently called a "panel" 27. The panel may be either transparent (Fig. 1) or opaque (Fig. 2). Reference numbers 25 and 27 have been inserted into Fig. 8a, which showed one pane, and the panel, both incorrectly identified initially as 31. Reference numbers 29 and

We believe the above changes will place this application in condition for allowance. If any issue remains, the examiner is requested to telephone the undersigned.

Respectfully submitted,

Charles W. Fallow
